## Maui Wedding Videography by **Words and Pictures**

Picture it. Your wedding on Maui. You likely chose this incredible place because of the almost unimaginable beauty, tranquility and peace. But that special day will all come and go so fast, you may feel like it is over before it ever began. That's why there is nothing like a perfect wedding video produced exclusively for you by **Words and Pictures**. With more than 30 years of experience in professional media, we know what it takes (like our motto says) "to tell the story." Every wedding is unique and every story special. Let us help you remember yours forever.

Your perfect wedding video begins with a video "montage" featuring Maui's scenic splendor - beaches, mountains, flowers - earth, sky and water, set to enchanting Hawaiian music. We can also use music that you choose. Be sure to ask us about making your keepsake photos part of your total wedding story.

Wedding photos, taken before or after the ceremony capture only glimpses in time. Video taken during your photo sessions adds a candid "behind the scenes" look at your special day. Every time you look at your wedding photos, each will bring back a memory that your perfect wedding video by **Words and Pictures** will reinforce, helping you recall even more of the whirlwind that was that magical day.

Every wedding package **Words and Pictures** offers includes two videographers. Why? Because there are moments and perspectives that simply demand it. Anything less would be...well, less. Ask us about adding a third camera for even greater perspective and more angles and coverage. By the way, those two videographers happen to be husband and wife - lifetime partners who know what it takes to capture each cherished moment. And each moment will appear in crisp color and clarity because we use only three-chip digital broadcast-grade camcorders from Sony. All editing is done in the "digital realm," using state-of-the-art non-linear technology. All that means that edit-to-edit, duplicate-to-duplicate, every scene is the exact same quality as the "first generation" moment it was captured by the camera.

Personal touches to your perfect wedding video include freeze-frame and slow-motion special effects (where appropriate), plus custom graphics both during your video and on each VHS videocassette label.

Visit [www.words-and-pictures.com](http://www.words-and-pictures.com) and click on "Wedding Videography" to see streaming video samples and actual images from video and to learn even more about how **Words and Pictures** can help capture that perfect day and tell the story forever.

You will find our wedding video package prices, additional options and the "fine print" on the next two pages. Browse, dream and start planning. You will likely have questions. Contact us as far in advance as possible to plan this extremely important part of your Maui wedding experience. You can reach us by e-mail at [weddings@words-and-pictures.com](mailto:weddings@words-and-pictures.com), by phone or fax at 808-879-2798. Contact us to learn more about what **Words and Pictures** can do to help you tell your story, and forever document this most important day.
